Just like most illnesses prevailing close to the chances of one getting hemorrhoids can be directly connected with the kind genetic make- up a person have. This therefore implies that when any of your immediate family such as any of your parents, brothers, sister or even grandparents and first degree relatives have observed having hemorrhoids after that you are most likely to have it as well.

The Very First and Fastest Way

Cold Treatment The first treatment you can do is applying ice packs or cold compress on the hemorrhoids. All you need is ice and put in within an ice pack or perhaps, if you do not have one, inside a small plastic bag and wrap it with a piece of cloth or even a towel. Apply the cold cloth on the affected area, which is the anus, and let it stay there for a while. The coldness will numb the particular hemorrhoids ending the pain as well as itchiness this inflicts. It will also decrease the swelling. Keep the hemorrhoids cold for about 15 minutes to see results. The effects are quick, the quickest among all treatments known so be sure to have ice available when your hemorrhoids start to sting.

Next, Have a Warm Sitz Bath

Right after the cold treatment is a warm bath for your hemorrhoids. This is popular referred to as sitz shower where the part of your body through waist down is dropped beneath warm water. All you need is a bathtub and fill it with warm water. It will not matter if your entire body from the neck down is submerged or just from waist down since both ensures that the rectum is actually exposed to the warm water. The warm water will relax the blood vessels that have turned into hemorrhoids and encourage blood circulation in the anus. It also relaxes the swollen anal tissues and the blood vessels within the anus was warm water will pass through the anal sphincter as well. Do this for 10 in order to 20 minutes or until the water is no longer comfortable.
